

**TRANSFORMING FARM TECHNOLOGY**

### **Newrock's Dribble Bar**

Available in Standard 7.5 metres (wider bespoke available on request).  
Sammy Hughes' unique design of horizontal macerator with stone trap including 6 spider legs which divert stones and foreign bodies to the exit chute.

Hydraulic motor macerator drive is remotely mounted so that no slurry can come in contact with tractor oils.

Can be used in conjunction with Newrock's umbilical system for added advantages.
